Our Schools

Kingfisher Education utilises two leading language schools in Bournemouth to deliver it's General English lessons, while we manage all other elements of the programme. Schools are British Council accredited and offer the highest standards of teaching. By operating programmes across multiple schools, we are able to maintain a balanced mix of nationalities at all times throughout the year. This is particularly beneficial for mini-stay groups, who travel outside the summer months and may otherwise find themselves isolated within a closed group environment without the opportunity to mix with other junior students. We exclusively partner with schools that are familiar to us and pride ourselves on offering the best value for money programmes .

What you can expect from our Schools:

- Outstanding facilities for all young learners
- Classrooms with interactive whiteboards
- Qualified EFL teachers
- Open plan school reception area
- Multimedia learning centre
- Computer room with printers and other IT equipment
- Free wireless internet throughout the campus
- Secluded external space for students to relax
- Prayer room
- Key code entry system for all students and staff
- School library with books and a stationary shop
- Cafeteria with a food hygiene rating of 5 out of 5
- 8 minutes walking distance to the residence
- 6 minutes walking distance to the beach
- Online entry test prior to arrival
- End of course certificate
- Course books on loan during your course

"We believe learning should continue outside of the classroom."
